

FRONT HUB

FMG020

When Printing for sizing:

Use paper size: 8.5 x 11 or "Letter"

Scale: 100% or "Actual size"

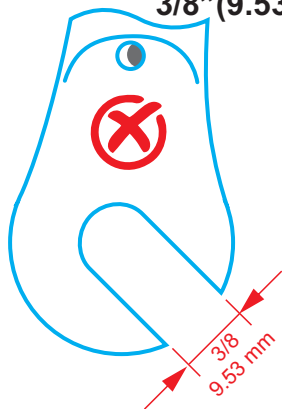

Orientation: Landscape

Measure Scale to confirm Print Size

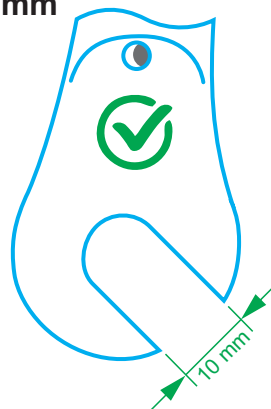

Front Fork Side View Slot Width Comparison:

3/8" (9.53 mm) vs. 10 mm

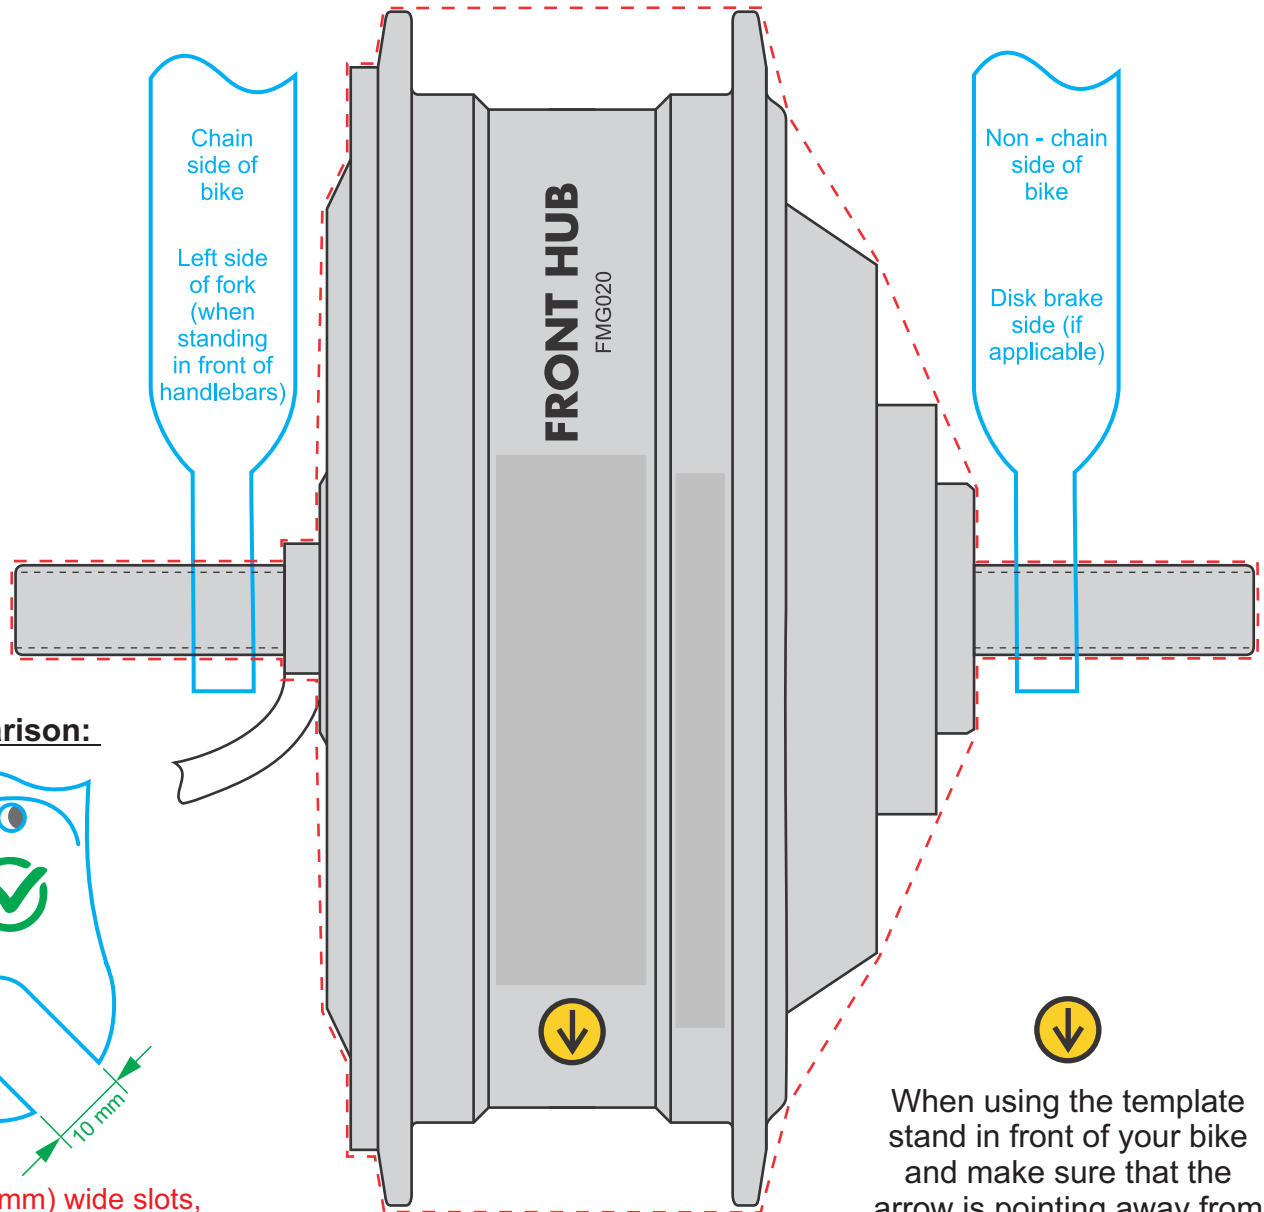

Vs.

If you have an older bike it may have 3/8" (9.53 mm) wide slots, but our hub motor requires a 10 mm opening. If your bike's front fork has 3/8" wide slots then you will need to file or widen the fork slots (0.5mm) for our hub motor to fit.

Cut along red dashed line

When using the template stand in front of your bike and make sure that the arrow is pointing away from your handlebars.
